

# Getting **involved, raising support, and giving** have never been so easy

We've created a special **Glacier Challenge donation website** through the **FirstGiving** program.

This is a really easy way to offer your donors **a way to help you raise money.**

Just follow these steps to set up your own **Glacier Challenge giving site** and then share that site address with **friends, family, twitter, and facebook.**

- 1. Log on to <http://www.firstgiving.com/youthhomes/Event/theglacierchallenge2011>**
- 2. Click the icon 'Raise \$'**
- 3. Create a personalized profile page**
- 4. Share that web address with your world**

Some people are wary of giving online and/or remain proud in their computer illiteracy. We respect that. That's why we've created the form at the bottom of this page. This is for those people in your life who choose cold hard cash or a check to do their business transactions. Please make sure your mailing address is written in at the bottom of this form for donors to send you payment.
